

HD2000 HM

General description

Machine with all movements fully automated, ideal for absolutely safe, trouble-free operation on **all types of wheels from 14" to 56" with a maximum diameter of 2700 mm and weight of 2000 kg.**

A machine particularly suitable for work on especially large agricultural and construction machinery and tractor wheels.

This machine's strong points are its **outstandingly strong structure, the tool arm assembly and the wheel clamping turntable.**

Chucking device capacity (with extensions)	14" - 56"
Minimum Hold on central hole diameter	(mm)120 - 800
Max. wheel diameter	2700mm
Max. wheel width	1500mm
Bead Breaker Power	3700 Kg
Lifting capacity	2000 Kg
Type Turn-table motor	Electric
2 Speed Gear box motor (3 -phase)	2,5 - 3,4 Hp
2 Speed Hydraulic pump motor (3-phase)	2,5 - 3,4 Hp
Weight	1500 Kg
